

LANmark-OF Indoor Tight Buffer optical fiber cables LSZH GB31247-B1 48-144C

INDOOR 144F TIGHT BUFFER OPTICAL FIBER CABLES LSZH GB31247-B1, G.652.D

Aginode Ref: N174.061GB1

- Tight Buffer optical fiber cables
- Indoor cable
- Aramid yarns for ease of installation
- Design for direct termination and splicing
- 144 fiber
- Flame Retardant complies with GB31247-B1

Application

The LANmark-OF Tight buffer Indoor cable has 900um buffered fibres. This second coating till 900um provides additional protection of the fibres and facilitates the handling when terminating the fibres in a patch panel. The easy strip tight buffer design allows stripping the fibre over 10cm in one action.

The LANmark-OF Tight buffer Indoor cable is most suitable for direct termination by either anaerobic or hot melt connectors. The tight buffered fibres can also be terminated with splicing of pigtails.

The dry structure of the LANmark-Of Tight Buffer Indoor cable allows both vertical and horizontal installations. It complies with GB31247-B1(d0,t0,a1) flame retardant. The cables can also be installed in a duct by pulling.
