INFRABIRD™

Access control & monitoring for street cabinets

INFRABIRD™ provides smart keyless access, and asset condition monitoring based on low power sensors that connect FTTH cabinets to IoT networks.

- Global management of cabinets and access rights.
- Real-time monitoring of all connected cabinets
- Alert in case of unauthorised opening or break-in
- Alert for cabinets left unlocked
- History of interventions

Visit the dedicated INFRABIRD™ web pages for more details.
